

Amier Davis

Hampton, VA | 740-400-1993 | amierLdavis@gmail.com | linktr.ee/AmierDavis

EDUCATION

Hampton University

Major in Computer Science with a focus in AI/ML
Cumulative GPA: 3.84 • Dean's List • Honors Student

Hampton, VA
Aug 2024 - May 2028

WORK EXPERIENCE

Google

Associate Software Developer Intern

Mountain View, CA
May 2025 – Aug 2025

- Worked on cutting edge **Android XR** team with prototype glasses hardware; collaborated in a team with one other intern
- Implemented **two new AI-powered user-journeys** utilizing front-end (Kotlin and Jetpack Compose) and back-end (Java) technologies, extending the glasses photography experience and increasing the value of the product
- **Presented and demoed** the features to Stakeholders, Directors, and Sr. Eng Managers, showcasing the value of the work
- Created and maintained thorough project documentation covering research, implementation details, and design decisions for complex architectural challenges

Pickerington Local School District IT Department

IT Intern

Pickerington, OH
May 2022 - Aug 2022 | May 2023 - Aug 2023

- **Lead a team of 4 interns** my second year installing 24 smart TV boards and routing network cables at several schools to allow for a more modern interactive learning experience for school district of over 10,000 students
- Hands-on experience with: network infrastructure, command line basics, computer repair, Apple and Chrome OS mobile device management (MDM)

TECHNICAL SKILLS

Java • Kotlin • Jetpack Compose • Prototype Hardware

PROJECTS

Weight Loss App

Group Project

Hampton University

- Worked in a group with 2 other students creating an app in Java that gives users a structured caloric deficit schedule to achieve a target weight
- I implemented the backend calculations for the schedule and an additional check to ensure the schedule only suggests a healthy caloric deficit

ACTIVITIES

Teacher's Assistant & Tutor

Hampton University

- Assisted **50+ first-year students** in mastering foundational data structures and other computer science concepts
- Provided weekly **1:1 tutoring**, strengthening students debugging and problem-solving skills, allowing them to succeed independently after sessions
- Mentored early CS majors by leveraging my Google internship and academic experience, fostering student confidence, career ambition, and **a stronger sense of belonging in tech**.

Student Film Organization

Hampton University

- Shot, edited, and co-directed campaign video for a freshman class president candidate which garnered over 2500 views and was instrumental in the candidate winning the election

ADDITIONAL

Awards: Full-Ride Academic Scholarship (Hampton, University), National African American Recognition Award (College Board)
